

## THE TIGER

### Sport Day Boat

The Tiger 20 is a ground breaking 20ft sports day boat, uniquely designed and more stylish than any other boat in its class. The hull gives you maximum stability and potential hull speed due to our unique "Step Lift" hull design. This allows for record time planning and the reduced friction works in favour of your fuel economy. The ease of handling makes this boat the perfect go-fast family sports boat, well suited for coastal cruising. The large engine compartment allows you to freely upgrade to a V8 engine, where else the Tiger comes standard with a V6-220 Hp engine

#### General Specifications

Type:	Monohull – Bow Rider
Overall length:	6.15 m
Overall beam:	2.33 m
Draught (Max):	0.50 m
Standard Engine:	4.3L 220 Hp
Maximum speed:	42 kts
Recommended cruising speed:	32 kts
Fresh water:	50 L (+/-)
Fuel:	265 L (+/-)
Max Persons:	8

Builder: Bakri Cono Shipyard

### Overview of the vessel

- 4.3 Liter, V6 - 220Hp Engine with Mercruiser Alpha 1 stern drive
- Choice of custom colored exterior paint
- Vinyl cushions with Quick dry foam
- All deck hardware of 316L stainless steel for corrosive protection
- Ample dry storage, 70 liter cooler box
- Wakeboard tower with tow hook & removable Bimini roof
- Spacious swim platform
- Hull & deck fused 360° and covered with Aluminum rub-rail

### Hull Features

- Planning step hull design which forces air under boat hull allowing for:
  - Faster planning of the boat
  - Increased top speed of boat
  - Less water friction increases fuel economy
- Reverse chines diverts water spray away and increases boat stability.

### Deck Arrangements

- 1x 245 Liter main watertight storage compartment
- 1x 70 Liter cooler box/dry storage box with drain plug under rear seats
- 2x Dry storage compartments under forward seats
- 1x Anchor chain/rope locker
- Stern swim platform
- Stern sunbed for 2 people

### Engine Room And Fuel System

- 265 Liter, 304 stainless steel fuel tank with tank sender
- 316 Stainless steel deck filler & tank breather
- Marine grade fuel hose, breather & supply hose
- Marine bilge blower for engine room ventilation
- Engine room louvers for ventilation

### Systems & Equipment

- All Systems 12V
- 2 x 12V AGM batteries
- Battery Isolation switch
- Instrument switch panel
- Automatic bilge pump with manual switch
- Self-draining deck
- Through hull fittings with 316 stainless steel trim
- Wire reinforced hoses to avoid collapse
- Transom drain plug
- 4 x 6" cleats
- Telescopic 316 stainless steel fold down ladder
- All hinges and lock lifts from 316 stainless steel
- 316 stainless steel hand rail
- Removable stainless steel Bimini top
- Drink cup holders
- LED Marine navigation lights
- LED Anchor Light

### Test Results

- Engine Type: Mercruiser 4.3 TKS - 190 hp
- Drive: Mercruiser Alpha One Stern drive
- Passengers: 2
- Max Speed @ 4800 RPM: 42 knots - 76 km/h

## THE SHARK 20 Sport Day Boat

The SHARK 20 is available as a Center Console, Bow Rider and Sedan with recommended engine size of 60 Hp for the hobbyist up to 150 Hp for the Thrill seeker. This boat comes standard with marine grade stainless steel hardware, high quality instrumentation and the hull has been designed to maximize comfort out at sea with a deeper V than normal. The wide range of outboard engines makes the Shark 20 a very affordable contender on the market.

### General Specifications

Type: ..... Monohull - Center Console / Sedan  
 Overall length: ..... 6.10 m  
 Overall beam: ..... 2.20 m  
 Draught (Max): ..... 0.45 m  
 Standard Engine: ..... 90 Hp Outboard  
 Maximum speed: ..... 36 kts  
 Recommended cruising speed: ... 28 kts  
 Fuel: ..... 180 L (+/-)  
 Max Persons: ..... 6  
 Builder: ..... Bakri Cono Shipyard

### Overview of the vessel

- 90 Hp 4 Stroke, Outboard engine with gauges and controls
- All 316 Stainless Steel deck hardware, HELLA® Marine LED lighting,
- Vinyl upholstery over quick dry foam, dry storage, non-skid decking
- Choice of custom colored exterior paint

### Hull Features

- Deep-V Hull design giving smooth and stable ride at high speeds, even in rough sea conditions
- Reverse chines diverts water spray away and increases boat stability
- Hull & deck fused 360° and covered with aluminum rub-rail

### Deck Arrangements

- 2x Dry storage compartments under stern seats
- 2x Cubby storage boxes
- 1x Captains seats
- Forward seating with storage hatches
- Anchor & chain compartment

### Engine Room And Fuel System

- 180 Liter, Stainless Steel fuel tank with tank sender
- 316 Stainless Steel deck filler & tank breather
- Marine grade fuel hose, breather & supply hose
- Engine well self-draining
- Water tight view port for easy access to bilge pump

### Systems & Equipment

- All Systems 12V
- Enclosed battery box
- Battery Isolation switch
- Automatic bilge pump with manual switch
- Self-draining deck
- Through hull fittings 316 with stainless steel trim
- Wire reinforced hoses to avoid collapse
- Transom water drain plug
- 1x Slide and twist mount captain's seat
- 4x 5" 316 stainless steel cleats
- 316 Stainless steel fold down ladder
- 316 Stainless steel fold down Bimini top with Canvas
- Switch Panel with Build-In Fuses
- Standard Gauges in Instruments
- Steering System
- LED Marine navigation lights
- LED Anchor Light
- Drink cup holders

### Test Results

- Engine Type: Mercury 90 hp - 2 Stroke
- Passengers: 2
- Max Speed @ 4800 RPM: 36 knots - 64.8 km/h
